INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of VDW Metropolitan District No. 1, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of VDW Metropolitan District No. 1, as of December 31, 2014, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management discussion and analysis and budgetary information on page 19 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise VDW Metropolitan District No. 1's financial statements. The individual fund schedules are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund schedules are fairly stated in all material respects in relation to the financial statements as a whole.

The supplemental information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Management's Discussion and Analysis

As management of VDW Metropolitan District No. 1 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2014.

Financial Highlights

- Liabilities exceeded assets by \$8,469,537 at the end of the fiscal year. This deficit of net position is largely due to the District being responsible for the repayment of bonds and capital advances that were used for public improvements and then subsequently dedicated to other governments.
- As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$308,274.
- Total cash and investments increased \$78,478 as compared to 2013. This increase is due to an increase in service fees received.
- General Fund expenditures were \$151,715 for the year ended December 31, 2014. Included in this amount were costs incurred to provide the administration of the District, including accounting, legal, management, insurance, utilities, landscape maintenance and other costs.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$257,867, or 170% of total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements identify functions of the District that are principally to be supported by ad valorem taxes (*governmental activities*). The governmental activities of the District include the financing, construction of, and maintenance of governmental infrastructure including streets, water, sewer, storm, parks and recreation, and transportation and traffic improvements constructed or acquired by the District.

The government-wide financial statements can be found on pages 1-2 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-side financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for each of the funds – General Fund, Debt Service Fund, and Capital Projects Fund.

The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for this fund in the basic financial statements to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 3-5 of this report.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 6-18 of this report.

Other information. The report includes individual fund schedules. A budgetary comparison schedule has been provided in this section for the Debt Service Fund and the Capital Projects Fund to demonstrate compliance with these budgets. The budget schedules are found after the *basic financial statements* on pages 19-21 of this report. A schedule of debt service requirements to maturity on the District's 2007 and 2011 Limited Property Tax Supported Revenue Bonds is included on pages 22-23 and schedules of comparative assessed valuation, mill levy and property taxes collected is included for VDW Metropolitan District Nos. 2 and 3 on pages 24-25.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The District's liabilities exceeded assets by \$8,469,537 at the close of the most recent fiscal year.

Net position - ending	<u><u>\$ (8,469,537)</u></u>	<u><u>\$ (8,610,505)</u></u>

The District's main revenue source for 2014 was service fees earned. The majority of the expenses for general government were legal, accounting, management, service plan amendment and landscape maintenance, which totaled \$151,715.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflow, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$308,274. This amount represents \$257,867 in unassigned fund balance that is available for spending at the government's discretion, in non-spendable balances made up of \$7,337 in prepaid expenses and \$43,070 in restricted fund balance comprised of \$18,100 for emergency reserves, and \$24,970 for capital projects and debt service.

General Fund Budgetary Highlights

The District's total General Fund expenditures for 2014 did not exceed the adopted budgeted appropriation. The difference between the adopted budgeted expenditures of \$185,950 and the actual expenditures of \$151,715 was \$34,235.

Capital Assets

Additional information on the District's capital assets can be found in Note 4 of this report.

Long-Term Debt

At the end of the current fiscal year, the District had total outstanding bond indebtedness of \$3,815,000. Of this amount, \$2,640,000 was for the Series 2007 and \$1,175,000 was for the Series 2011 Limited Property Tax Supported Revenue Bonds. The Series 2007 are due December 1, 2032 and pay interest of 6.5% and the Series 2011 are due December 1, 2032 and pay interest of 8.0%

Additionally, the District had a long-term liability to the VDW Properties, LLC of \$7,512,277 as a result of funding provided by VDW Properties, LLC to the District for capital improvement costs.

Additional information on the District's long-term debt can be found in Note 5 of this report.

Next Year's Budgets and Rates

Budgeted General Fund expenditures for 2014 are \$184,819, and are anticipated to be funded with service fees.

Requests for Information

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended December 31, 2014

Amounts Reported for Governmental Activities in the Statement of Activities
are Different Because:

Net Changes in Fund Balances - Total Governmental Funds	\$ 85,875
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This amount is amount by which capital outlay \$281,479, exceeded depreciation expense (\$22,201) for the current period.	259,278
Debt proceeds are reported as financing sources in the governmental funds and increase fund balance. In the government-wide financial statements, however, issuing debt increases long-term liabilities in the statement of net position and does not effect the statement of activities. This amount represents developer advances.	(310,232)
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This amount is payment of bond principal (\$105,000), and change in accrued interest of (\$1,047), for the year.	<u>106,047</u>
Change in Net Position of Governmental Activities	<u>\$ 140,968</u>

VDW METROPOLITAN DISTRICT NO. 1

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2014

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

VDW Metropolitan District No. 1 (the District), a quasi-municipal corporation and political subdivision of the State of Colorado was organized by order and decree of the District Court for the City of Loveland on June 6, 2002, and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District's service area is located in the City of Loveland (City), Larimer County, Colorado. The District was established to provide construction, installation, financing and operation of public improvements, including streets, traffic and safety controls, water, sanitation, storm drainage, transportation, television relay and translator, park and recreation facilities, and mosquito and pest control. The District's service plan was approved by the City. Pursuant to the consolidated service plan for VDW Metropolitan Districts No. 1-3, the District operates as the Service District related to VDW Metropolitan District No. 2 (Residential District) and VDW Metropolitan District No. 3 (Commercial District).

The accounting policies of the District conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

Reporting Entity

In accordance with governmental accounting standards, the District has considered the possibility of inclusion of additional entities in its financial statements.

The definition of the reporting entity is based primarily on financial accountability. The District is financially accountable for organizations that make up its legal entity. It is also financially accountable for legally separate organizations if District officials appoint a voting majority of the organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. The District may also be financially accountable for organizations that are fiscally dependent upon it.

Based on the application of these criteria, the District does not include additional organizations in its reporting entity.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of Net Position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

VDW METROPOLITAN DISTRICT NO. 1

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2014

NOTE 1: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of the given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current *financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Service fees, grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation
(Continued)

In the fund financial statements, the District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *Capital Projects Fund* accounts for the acquisition and construction of capital assets.

The *Debt Service Fund* accounts for the payment of the District's bonds.

Cash and Investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of the immediate operating requirement is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash. Cash equivalents include investments with original maturities of three months or less.

Investments are recorded at fair value.

Accounting Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Capital Assets

Capital assets, which include property and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. The District also capitalizes all infrastructure costs. Assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities fund type statement of Net Position.

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

The government-wide and business-type fund financial statements utilize a net position presentation. Net position is categorized as investment in capital assets, restricted, and unrestricted.

Investment in Capital Assets is intended to reflect the portion of net position which are associated with non-liquid, capital assets less outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets.

Restricted Net Position are liquid assets, which have third party limitations on their use.

Unrestricted Net Position represent assets that do not have any third party limitation on their use. While City management may have categorized and segmented portion for various purposes, the City Council has the unrestricted authority to revisit or alter these managerial decisions.

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable – This classification includes amounts that cannot be spent because they are either not in a spendable form (such as inventories and prepaid amounts) or are legally or contractually required to be maintained intact. The District has reported prepaid expenses as nonspendable as of December 31, 2014.
- Restricted – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District has classified Emergency Reserves as being restricted because their use is restricted by State Statute for declared emergencies. The District has also classified the fund balances in the Debt Service and Capital Projects Funds as restricted.
- Committed – This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Directors. These amounts cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District did not have any committed resources as of December 31, 2014.
- Unassigned – This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The District would typically use restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned fund balance.

Comparative Data

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the District's financial position and operations. However, complete comparative data in accordance with generally accepted accounting principles has not been presented since its inclusion would make the financial statements unduly complex.

Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 2: **STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- On or before October 15, District Management submits to the Board of Directors a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to December 31, the budget is legally enacted through passage of a resolution.
- District Management is authorized to transfer budgeted amounts between departments within any fund. However, any revisions that alter the total expenditures of any fund must be approved by the Board of Directors.
- Budgets are legally adopted for all funds of the District on a basis consistent with GAAP.
- Budgeted amounts in the financial statements are as originally adopted or as amended by the Board of Directors. All appropriations lapse at year end.

NOTE 3: CASH AND INVESTMENTS

Cash and Investments at December 31, 2014 consisted of the following:

Deposits	\$ 103,809
Investments	<u>201,995</u>
Total	<u>\$ 305,804</u>

Deposits

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At December 31, 2014, State regulatory commissioners have indicated that all financial institutions holding deposits for the District are eligible public depositories.

Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. The District has no policy regarding custodial credit risk for deposits.

At December 31, 2014, the District had deposits with financial institutions with a carrying amount of \$103,810. The bank balances with the financial institutions were \$121,657. All of these balances were covered by federal depository insurance.

Investments

Interest Rate Risk

The District does not have a formal investment policy; however the District follows state statutes regarding investments.

NOTE 3: CASH AND INVESTMENTS (continued)

Investments (Continued)

Credit Risk

Colorado statutes specify in which instruments the units of local government may invest which include:

- Obligations of the United States and certain U.S. government agency securities
- General obligation and revenue bonds of U.S. local government entities
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

During 2014, the District invested \$201,995 in the Colorado Local Government Liquid Asset Trust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value up to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+, both of which are rated AAA from Standard and Poor's. Both portfolios may invest in U.S. Treasury securities agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investment and withdrawals. The custodian's internal records segregate investments owned by the Trust.

NOTE 5: LONG-TERM DEBT(Continued)

\$1,200,000 Limited Property Tax Supported Revenue Bonds, Series 2011, dated August 30, 2011, with interest of 8.0%, consisting of term bonds issued in the original amount of \$1,200,000 due December 1, 2032. All bonds maturing on or after December 1, 2021 are callable at the option of the District without premium.

The bonds are secured by and payable from the Pledged Revenue consisting of monies derived by the District from the following sources, net of any collection costs: (1) all amounts payable to the District under the Capital Pledge Agreement. Under the Capital Pledge Agreement the two Financing Districts must remit all net property tax collections from the Required Mill Levy to the District. (2) Any other legally available moneys which the District determines, in its absolute discretion, to credit to the Bond Fund. Required Mill Levy means an ad valorem mill levy imposed upon all taxable property of the Financing Districts, each year in an amount sufficient to pay the principal and interest on the bonds as the same become due and payable. Based on the 2013 principal and interest repayment, the mill levy certified for debt service by District No. 2 and District No. 3 was 27.900 mills. For collection year 2014, District No. 2 and District No. 3 levied 27.900 mills.

Future debt service requirements are as follows:

Authorized Debt

On May 7, 2002, a majority of the qualified electors of the District authorized the issuance of indebtedness in an amount not to exceed \$32,944,452 at an interest rate not to exceed 12% per annum. Pursuant to the Service Plan, the District is permitted to issue bond indebtedness of up to \$16,000,000.

Advances

The District had a long-term liability to VDW properties, LLC of \$7,512,277 as of December 31, 2014 as a result of the District agreeing to acquire from, or reimburse, VDW Properties, LLC for public improvements constructed by VDW Properties, LLC. The District has entered into the following funding arrangements with VDW Properties, LLC:

Improvements Acquisition Agreement

The District entered into that certain Improvements Acquisition Agreement with VDW Properties, LLC on December 1, 2005, which was replaced and superseded in its entirety by that certain Amended and Restated Improvements Acquisition and Reimbursement Agreement, entered into between the District and VDW Properties, LLC on May 20, 2010. Under the terms of this agreement, the District has agreed to acquire completed public improvements from VDW Properties, LLC. There were no public improvement acquisitions during 2014. Interest on these advances may only be repaid in the event the District generates sufficient cash flow to pay principal and related interest annually. As of December 31, 2014, outstanding advances under this agreement totaled \$7,512,277.

Advance and Reimbursement Agreement

The District entered into that certain Advance and Reimbursement agreement with VDW Properties, LLC, dated October 22, 2012. Pursuant to this agreement, VDW Properties, LLC agreed to loan to the District up to \$2,900,000 to fund capital improvements needed for Parcel D and H development. The funding obligation under this agreement expired on December 31, 2013. On November 2, 2014, the parties entered into a new Advance and Reimbursement Agreement pursuant to which VDW Properties, LLC agreed to loan the District additional funds not to exceed \$2,900,000, including all funds loaned under the previous agreement, to fund capital improvements. The funding obligation under this agreement expired on December 31, 2014. The District's obligation to repay funds advanced pursuant to these agreements are currently secured by a subordinate promissory note dated as of January 1, 2015. The note matures on December 31, 2015 and bears interest at a rate of two percent plus the Federal Reserve prime rate or six percent, whichever is greater. Interest may only be repaid in the year in which it accrues.

NOTE 6: RELATED PARTIES

The developers of the property which constitutes the District are VDW Properties, LLC, and VDW Retail, LLC. The members of the Board of Directors are employees, owners, or are otherwise associated with the developers and have disclosed any potential conflicts of interest in taking action on matters brought before the Board. The District owes VDW Properties, LLC \$7,512,277 as of December 31, 2014 for outstanding capital advances.

NOTE 7: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or natural disasters.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool) as of December 31, 2014. The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery, and workers compensation coverage to its members. Settled claims have not exceeded this coverage in the past three years.

The District pays annual premiums to the Pool for liability, property, and public officials' coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 8: COMMITMENTS AND CONTINGENCIES

Tax Payer Bill of Rights (TABOR) Amendment

TABOR Amendment - Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local government. The Amendment is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of the Amendment.

The District has established an emergency reserve, representing 3% of fiscal year spending (excluding debt service), as required by the Amendment. At December 31, 2014, the emergency reserve of \$18,100 was recorded in the General Fund.

Notes:

(1) After certification, in early 2009, the assessor reclassified \$1.8million of AV from District No. 2 to District No. 3, which was a cumulative adjustment of \$776,360 related to 2008 and \$1,1168,860 related to 2009 collection years. This resulted in less property taxes received in District No. 2 than budgeted and certified and more in District No. 3. However, when the adjustment is taken into account, both Districts collected 100% of property taxes in 2009.

(2) Property taxes collected in any one year include collection of delinquent property taxes levied in prior years.
